Art Unit: 1649

Claims 1 to 12 and 15 to 31 are pending in the instant application.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 to 10 and 17 to 31, drawn to a constitutively active cannabinoid receptor and methods of use.

Group II, claims 11, 12, 15 and 16, drawn to a compound of unspecified constitution.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The receptor protein of group I and the compound of group II are structurally unrelated and, therefore, do not share a common feature or combination of features that distinguishes them as a group from the prior art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John D. Ulm whose telephone number is (571) 272-0880. The examiner can normally be reached on 9:00AM to 5:30PM.
